- My 11yr old son was so shy and timid when he joined the Sports Camp. Within 3 days he became more confident and talkative. He would come home and be really excited about all the activities and all the new friends he'd made. He says that the ambassadors and staff members really look after them and introduce them to really exciting activities. My son also loves the lovely healthy fruit and refreshments they have for everyone. Sports Camp at Burgess Park is a wonderful experience for the kids and I have to thank the staff and ambassadors very much, for making the past 3 weeks of my son's summer holidays such a wonderful experience!
- Really help parents a lot
- Value for Money & fact that elder children are ambassadors means kids look up to them
- I think that is really good the kids can learn some sports skills for free every week in there .
- Burgess Sports activities are fantastic, it offers children the lots of things to do and a place to be during the holidays. Parents also have childcare at £0 or very affordable cost (with extension) The Burgess Sports leaders Vernon and Alice were very friendly and offered a lot of support and advice on various things. My eldest son got the opportunity of acquiring a nationally recognised qualification and became an ambassador and my 10 year old enjoyed new sports he had never tried before like Rugby.
- Organised
- The coaches and sessions give a positive refreshing release to engage my child/ren and give them an inviting time to become active, along with social, nurturing, teach them independence in a safe environment which is needed in these days of hardship where parents need release not only physically, mentally but to work.
